

## ***OMEP Research Updates: Call for proposals***

OMEP-UK has a long history of providing highly regarded and valuable peer reviewed research updates. We accept proposals from any member of the early childhood education and care community, and from authors at any stage of their career. Our publication requirements are modest, we are seeking research updates that address any issue of current interest, and by their summary nature they require a relatively short word length. While many previous *OMEP Research Updates* have been provided by leading experts in their field, for some authors, an *OMEP Research Update* has been their first peer reviewed academic publication. Your research review should begin by closely defining the specific focus, it should be under 2,000 words and include a complete bibliography. The bibliography may, if required, go beyond the 2,000 word limit . The work does not need to be original although it must be free of copyright restrictions. If you have recently carried out a literature review for another purpose please consider sharing it with the wider early childhood education and care community.

On submission the work will be anonymously peer reviewed by two members of the OMEP-UK executive board who act as the editorial committee. Your submission will normally be returned to you within a maximum of three weeks with an acceptance, rejection or suggestions for revision.

All submissions and correspondence should be addressed to: [ukomep@gmail.com](mailto:ukomep@gmail.com)
